

February 2011

Carpinteria Valley Water District

H₂KNOW

Central Zone Transmission Main Project

Update! As many of you may have seen, over the last several months, the Water District has been busy installing a 12 inch water main along sections of El Carro Lane and sections of Cramer Road and Cramer Circle. Much of the work has been completed using methods known as “trenchless technology”. Below and on the reverse side are various photos of the work in progress.

A horizontal directional drilling machine was used to install much of the 12 inch pipeline along El Carro Lane.

Once the drill hole was completed the pipe was then pulled back through the open hole by the drill rig.

El Distrito es bilingue. Favor de llamar (805) 684-2816 con cualquier pregunta sobre su cuenta o el uso de agua, estamos aqui para asistirlos.

A section of casing is shown being hoisted into the "jack and bore" pit located at the end of Cramer Road.

An auger bit set inside the casing was used to displace material as the casing was pushed through the soil. The casing was pushed completely under US 101 from Cramer Road to Cramer Circle.

After the casing is installed completely under US 101, a 12 inch pipe was installed inside the casing to complete the water main crossing at Cramer Road.

Board of Directors Meetings

The Board of Directors has approved a new Board meeting place and schedule. Regular Board meetings may now be held on the second and fourth Wednesday of every month at 5:30 pm at Carpinteria City Hall, 5775 Carpinteria Avenue. The Board may also hold regular Board meetings other Wednesdays of the month at 5:30 pm at the District Offices at 1301 Santa Ynez Avenue.
