Carpinteria Valley Water District

H₂KNOW

Central Zone (CZ) Main Construction Almost Finished!

The photo to the right shows the installation of Petromat, a non-woven polypropylene fabric. This fabric layer forms a barrier to water infiltration and absorbs stresses to the roadway, reducing reflective and fatigue cracking.

The photo to the left shows hot asphalt material being dumped into the asphalt spreading machine. The machine evenly disperses the asphalt and can adjust the thickness. The machine in the foreground is the rolling compactor.

El District es bilingue. Favor de llamar (805) 684-2816 con cualquier pregunta sobre su cuenta o el uso de agua, estamos aqui para asistirlos.

Another Successful Sustainable Garden Workshop!

On Saturday, January 14th, the District along with Carpinteria Beautiful sponsored and hosted a Sustainable Gardening Workshop. The workshop, led by Corey Welles, Plant Health Care Coordinator at Lotusland focused on creating and nurturing a healthy and vibrant garden without the use of toxic substances or a lot of water. A number of attendees came for the gopher trapping demonstration and much to their surprise, a gopher was trapped!

At left, Corey shows the type of trap he uses to capture and kill gophers. They can be purchased at www.traplineproducts.com. Corey emphasized the use of thick rubber gloves to eliminate any human scent getting on the trap that would warn the gopher to stay away.

Pictured below is the gopher trapped on site during the workshop.

Board of Directors Meetings

Regular Board meetings may be held on the second and fourth Wednesday of every month at 5:30 pm at Carpinteria City Hall, 5775 Carpinteria Ave. The Board may also hold regular Board meetings other Wednesdays of the month at 5:30 pm at the District Offices at 1301 Santa Ynez Avenue.
